

PUBLIC BLANK RESOURCE

Event Planning Tool

Intended user: Advanced Culinary and Kitchen Management students working with their teacher

Purpose	Plan a Cottage, pop-up, capstone, or course-connected culinary event from educational purpose through closeout.
When to use	Begin only after the teacher confirms the event is appropriate to explore. Complete sections in sequence and pause at each teacher approval point.

Teacher approval governs

This public blank tool supports instruction. It is not a client agreement, purchasing authorization, food-safety approval, financial record, or promise that an event will occur.

1. Event scope and educational purpose

Event or project name	Proposed date and service deadline
------------------------------	---

Client or audience	Estimated number served
---------------------------	--------------------------------

Current course/unit connection	Teacher supervising
---------------------------------------	----------------------------

Educational purpose

What should students learn or demonstrate through this event? Connect the event to current curriculum, not only to service goals.

Event scope

Describe what is included and excluded: menu or product, service format, location, audience, setup, delivery, packaging, and closeout.

Teacher approval point 1: scope may proceed to detailed planning	Date
---	-------------

2. Menu, product, and required skills

Menu item or product	Yield/quantity	Required skills	Recipe tested?	Quality standard

Menu item or product	Yield/quantity	Required skills	Recipe tested?	Quality standard

Ingredients and sourcing

List major ingredients, special orders, approved vendors or school inventory sources, substitutions, and purchasing lead time. Final purchasing follows district procedure.

Allergens and dietary considerations

List known major allergens, disclosed dietary needs, cross-contact controls, ingredient-label checks, and who will complete the final teacher food-safety review.

--

3. Equipment, production, and service

Equipment or space	When needed	Assigned check	Holding/storage	Contingency

Service or packaging plan

Explain plating, labeling, packaging, transport, hot/cold holding, service flow, client handoff, and cleanup expectations.

4. Student roles and task assignments

Student/role	Responsibility	Preparation required	Quality/safety checkpoint	Teacher check-in

5. Production timeline

Deadline/time	Task	Responsible role	Dependency	Status/notes

Deadline/time	Task	Responsible role	Dependency	Status/notes

6. Costing and resource check

Estimated ingredient cost	Estimated cost per serving
---------------------------	----------------------------

Proposed service/selling price if applicable	Budget or purchasing limit confirmed by
--	---

Resource constraints and adjustments

Identify limits involving time, staffing, equipment, space, purchasing, transportation, accessibility, or student readiness. State how the plan changes if a constraint cannot be resolved.

Teacher approval point 2: menu, safety, roles, timeline, and resources approved for execution

Date

7. Day-of quality checks

- ☐ Team briefing completed; each person can explain the role and definition of done.
- ☐ Ingredients, recipes, labels, allergens, and substitutions checked.
- ☐ Equipment, utilities, holding/storage, sanitation, and emergency routes checked.
- ☐ Production sequence and service deadline reviewed.
- ☐ Quality checkpoints and escalation route reviewed.
- ☐ Teacher retains final authority over safety, service commitments, finances, and changes.

8. Closeout and post-event review

- ☐ Food, equipment, and spaces closed out according to teacher direction.
- ☐ Unused ingredients and leftovers handled according to approved procedures.
- ☐ Actual quantities, costs, waste, timing, and quality notes captured for class review.
- ☐ Students complete individual event reflections.
- ☐ Teacher determines which evidence, if any, is retained in approved school systems.
